Used Audi Parts from Shokan

you need to remove the steering column lock assembly (the part the switch is in) by loosening the #30 tamper proof torx screw. you will probably need to remove the key cylinder to make extra room to slide it out. knowing where to make a hole to remove the key part is a talent and will take a long time to explain. if you need it explained, leave another post.

electrical key switch assembly - 1990 Audi 100 - RepairPal

Like most 2B ur quattro restorations, the entire wiring system was removed and replaced with a newer more reliable harness. ' We began the body and paint work. You never know what is under the paint. This one turned out to be more paint, body filler, and a little rust. The photo shows some of the layers.
