Codes, Codes, Codes. General Motors stamped the engine block with the last six digits of the VIN. Letters and numbers were used to denote horsepower, and the transmission to which it was to be coupled, as well as the month and day built. "F" or "T" was used to denote Flint, Michigan, or Tonawanda, New York, as the foundry supplier.

C2 Corvette Restoration by the Numbers: What to Look For

Chevrolet began stamping the VIN on Corvette engines and transmissions in 1960. Before 1968, when a federal law required this serial number to be visible from the outside of the car, the Corvette's VIN was either located on the steering column (1960-1962 models) or on a brace below the glove compartment (1963-1967 models).

How to Tell If Your Collector Corvette Has Matching Numbers

A series of codes and stamps are located on the engine block that will allow you to identify it as being manufactured specifically for a Corvette. There are dates of manufacture and the engine's original application if you just know where to look. As the year's progressed and engine options increased, the numbering and casting system ...

1967 Chevrolet Corvette. Still regarded by many as one of the best selling Corvettes of all time, the 1967 Corvette Stingray was restyled with five smaller front fender vents, new rocker panel trim, slotted Rally wheels, and slight interior changes, including a parking brake moved to the center console.

1967 Chevrolet Corvette - Oldride

I am really, really curious about the cast code now. I guess they were stamped onto the block on a

moving assembly line prior to the heads being put on. I could see a lot of mistakes, errors, etc. Also, after some late month in model year 1967 they went back and punched the VIN over the engine code once the motor was in the car.

327 Engine pad stamping? | Page 2 | The H.A.M.B.

3) 1967 327 300 hp out of a powerglide corvette 4) 1968 327 300 hp out of a Turbohydramatic corvette I believe Bob308 is correct about the carb so with that If I were a betting man I would say it has "3914678" cast into the side and it came out of a 1968 300 hp automatic vette.
