2002 Seadoo Rxdi Engine

Well, about a year ago I joined the ranks of having my 2002 RXDI engine seize up. It still runs until it warms up then it won't turn over. Get it back to the house, it starts up and I am able to flush it. The shop says I need a new engine because one of the valves is sticking and heating up the block causing the engine to choke itself out.

I just put a new engine in my 2002 Seadoo RXDI. What a pain. It starts easy and runs great. I left the oil return line off to see if it actually returned oil. It blows air but no oil after 5 starts. I only run it for 10 to 15 seconds and let it cool down for at least 2 hours before I run it again for another 10 to 15 seconds. Still no oil coming out.
