"In 1914 Daimler provided the Imperial Air Service with what was to be their most prolific and successful engine, the Mercedes D.III." When introduced this engine was too powerful for most aircraft and was not put into service until 1916 with the Albatros series of single seat aircraft. Originally rated at 150 hp, by the war's end this unit produced 217hp @ 1,750 rpm.

Mercedes Engine History | The Vintage Aviator

Note 1 Definitions. Modify means to change a vehicle from its original state by altering, substituting, adding or removing a structure, system, component or equipment, but does not include repair.. Repair means to restore a damaged or worn vehicle, its structure, systems, components or equipment to within safe tolerance of its condition when manufactured, including replacement with undamaged ...
