I see two different way that I would choose between for this problem. If you could think of hosting

the command in a MenuStrip instead, and it is the same child form that lives in several instances in the MDI application, you could add the command(s) to a MenuStrip control in the child form instead. These menu commands will be automatically merged with the commands in the parent form, but any ...

A tropical year (also known as a solar year) is the time that the Sun takes to return to the same position in the cycle of seasons, as seen from Earth; for example, the time from vernal equinox to vernal equinox, or from summer solstice to summer solstice. Because of the precession of the equinoxes, the seasonal cycle does not remain exactly synchronized with the position of the Earth in its ...
