I have a 2001 vw Jetta 1.8T. My check engine light is on and I had to take it in to have the emission inspection. The mechanic said that he could not get the OBD to communicate. He also tried to do an overall diagnostics to see why the check engine light came on, but still no luck. It would not communicate with the diagnostic mechine.

I am having trouble with my daughters 2001 jetta 1.8t, the transmission is sending P1624,P1602 codes. When I check the car with a generic code scanner the same code comes upP0715,P0722. The car is shifting strange it stays in gear to long. If you clear the codes it drives fine for a day then check engine light comes on and back to crappy shifting.
