Shop Genuine BMW Batteries | getBMWparts.com

The reason I believe this is a starter is because the vehicle started for you one time and then no longer started and only "clicks". I know that on the Z4 some of the module in the vehicle can re-enter transport mode and not allow the vehicle to start but this would not make the starter turn at all. If you could try to make sure the click is from the starter to make sure this is not the situation.
