I have a 2005 Honda Accord LX. A few months ago the temperature gauge started reading hot. I can get in my car and drive on the highway or around town and the temperature gauge will read completely normal, but after about 20 minutes the needle will start to rise getting as high as the red. The crazy thing is that when I pull over to check the engine the temperature is completely normal.

True about the 1-Ohm speakers. I personally think it is a mistake to put another amp and speakers in it. The young man that left here a few weeks ago after we had rebuilt his Bose amps had a smile on his face and he said "you weren't kidding when you said people are amazed at how good it will sound", he was glad.
