I just picked up a 2001 gp1200r for \$2500. It has 118 hours and runs great. Only problem (that the previous owner even told me about before purchase) was that the overheat warning comes on for no apparent reason. I feel the engine after the alarm and it's not hot at all. It has nothing to do with speed or RPM because sometimes it just starts when I'm standing still.
