touch sensor button* for 4-5 seconds until the screen displays the off button- Short press to select the power off mode. Your activity band goes into sleep mode by default when not in use- it is reactivated by a short press of the touch sensor button or by your wrist movement if applicable. *If no action occurs when pressing down the touch sensor

USERS GUIDE - JarvMobile
Firstly, there is a difference between the Java JDK and the JRE. The JRE is the Java Runtime Environment while the JDK is the Java Development Kit. It is the JDK that you need for Android application development along with the existing Android SDK. The Android SDK can use either JDK 6 or 7, however, it can ONLY use the JDK 6 API.

java 7 - Does Android support JDK 6 or 7 - Stack Overflow
The Java Tutorials have been written for JDK 8. Examples and practices described in this page don't take advantage of improvements introduced in later releases. The Java Tutorials are practical guides for programmers who want to use the Java programming language to create applications.
